

Carilion Clinic-VTC Family Medicine Residency Program

Mission and Vision

The VTC Family Medicine Residency Program prepares family medicine physicians to care for the communities they serve.

Our Program Mission is to:

- *Produce board-certified family medicine physicians who are capable of delivering full-scope family care in the region with a focus on underserved communities*
- *Produce physicians with attitudes and skills that promote team-based care and lifelong learning*
- *Facilitate discovery of an individual path within Family Medicine*
- *Collaboratively create individualized education plans that reflect resident goals*
- *Develop physician leaders with skills to lead within their practices, institutions, and communities*
- *Promote physician well-being and thriving*
